Few Milestones in **virtualinfocom**

Since 2008, we’ve been making superhero characters from real actors and models from 5 continents. Made ecosystem for fresh actors and models to become game character and become popular in entertainment world.

Producer of India’s first super hero Shaktimaan TV character as game.

Created 350+ Superhero game character from real actors and celebs around the world and

that became a history itself.

Produced 7 movies and several short movies as investor and sleeping producer.

Produced Bengal's first movie based game with Actor Jeet in their movie Boss 2.

Created India's first real actor and actress based RPG game.

Made several local actors and artists popular globally in TV series and international movies market in Asia.

Created Bangladeh's first superhero based game Bizli as a movie partner.

Digital Bank solution for few private banks. Ecosystem for gas stations using blockchain & AI.

Some of the Press/ TV/ Media Glimpse

Topic: Entrepreneurship Mentoring and Business Incubation
Speakers: (L-R) Rajiv Mukherjee, co-founder and CEO, Incubate Hub; Rajat Agarwalla, co-founder, Lexulous Word Game; Raghav Kanoria, co-founder, Calcutta Angels Network; Arijit Bhattacharyya, founder-CEO, Virtualinfocom
Key takeaways:
- Networking is important for any start-up.
- Gaining the trust of your target customers is a huge task, given the competition.

‘মোমো’র মতো খেলার পিছনে কত টাকার লগ্নি আছে ভাবতে পারবেন না

এই মুহূর্তে কলকাতার অন্যতম সফল ভাঁড়ুয়াল গেম ডেভেলপার তিনি। তাঁর ব্যবসা ছড়িয়ে গিয়েছে বিদেশেও। অরিজিৎ ভট্টাচার্য। টালিগঞ্জের এমন কোনও অভিনেতা নেই যাঁরা তাঁর গেমের চরিত্র হননি। আগরপাড়া থেকে অভিভ্রনর হয়ে ওঠার গল্প ‘ওবেলা’কে জানালেন অরিজিৎ।

■ চিরাচরিত ভাবনা ভেঙে বাঙালি ব্যবসা করছে ভাহলে?

রাজো হোক, কিংবা রাজের বাইরে— বাঙালি কী পরিমাণ ব্যবসা করছে, বলতে বিশ্বাস করবেন না! কিন্তু তাঁরা প্রকাশ্যে আসতে পারছেন না। এর পিছনে নানা কারণ থাকতে পারে।

■ অভিভ্রনর কথাটা তো এখন প্রায় গ্ল্যামার কেপাণ্ডে পরিণত হয়ে গিয়েছে!

(হেসে) একদমই তাই! ব্যবসায়ী এবং অভিভ্রনরের মধ্যে কিছু পার্থক্য রয়েছে। এটাই অনেকে বোঝেন না। অভিভ্রনর হলেন সেই ব্যক্তি, যাঁর ব্যবসার মডেলটা একেবারে আলাদা। অর্থের গন্ধটাই অভিভ্রনর ব্যবসা শুরু করলেও, তা টিকিয়ে রাখতে পারছে না। ঝুঁকি নিয়ে একটা ব্যবসা শুরু করাটা বড় ব্যাপার নয়। কিন্তু প্রতিযোগিতার বাজারে ব্যবসাকে টিকিয়ে রাখাটাই আসল চ্যালেঞ্জ।

■ একেত্রে কি বাঙালির ‘কাঁকড়া’ ফ্যাক্টরটাও কাজ করে?

হ্যাঁ, করে বো। একটা ছেলে বা মেয়ের ব্যবসা শুরু করার কয়েক বছর পর যখন তাঁর হ্যান্ড-হোল্ডিংয়ের প্রয়োজন হয়, তখন কেউ এগিয়ে আসতে চান না। কলকাতার বাইরে কিন্তু অনেকেই নতুন অভিভ্রনরদের হাত ধরার জন্য অপেক্ষা করে থাকেন।

■ ভাঁড়ুয়াল গেম নিয়ে ব্যবসা শুরু করার ভাবনাটা এল কীভাবে?

আমি আগরপাড়ার ছেলে। বাবা কর্পোরেটে সংস্থার উচ্চপদে ছিলেন। বাবার মুখে গেম-বিনোদের অনেক ব্যবসায়ীর গল্প শুনতাম। সেই থেকেই ধারণা হয়, ব্যবসা ছাড়া কোনও গেম মহান হতে পারে না। ছোটবেলা থেকে ছবি আঁকাটা ছিল আমার শখ। কমিকস আঁকা এবং লেখা ছিল আমার পাশন।

■ তারপর?

কলেজ সিরিয়াস স্কেচ করে যখন ব্যবসা শুরু করি, তখনে সকলে হাসাহাসি করতেন। আগরপাড়া থেকে টালিগঞ্জের স্টুডিওর বাইরে হাতে ফ্লপপুক নিয়ে বসে থাকতাম। পরিচালকদের সঙ্গে দেখা করার জন্য। বাজে ভেবে দেখে অনেকেই পাত্তা দিতেন না। জায়েই সুযোগ পেয়েও পড়িনি। অর্থনীতি নিয়ে পড়েছিলাম। মনে হয়েছিল, ব্যবসা করতে গেলে ইকনমিক্স নিয়ে পড়াটা জরুরি। তারপর কম্পিউটার অ্যাপ্লেকেশনের কাজ শুরু করি। বিভিন্ন কোম্পানির হয়ে সফটওয়্যারও বানিয়েছি। রোজগারের জন্য ছাত্র পড়িয়েছি, পুজোও করেছি (হাসি)।

■ মারণ খেলা ‘মোমো’ এখন খবরের শিরোনামে। এতে নির্মাতাদের লাভ কোথায় বলতে পারবেন?

‘মোমো’র মতো খেলার পিছনে কত টাকার লগ্নি আছে ভাবতে পারবেন না। বিশ্বের অনেক জনকুবেরের বিচিত্র সব শখ রয়েছে। কারও মৃত্যু দেখে তাঁরা আনন্দ পান। সেই মানুষগুলো ‘ব্লু হোয়েল’, ‘মোমো’র মতো গেম ডেভেলপারদের সঙ্গে যোগাযোগ করেন। তাঁরা টাকাও ঠিক করে নেন, যে অমুক বাচ্চা বা কিশোরটিকে হত্যা করতে হবে। কয়েদিনের মধ্যে সেই বাচ্চাটিকে মারা যাচ্ছে, সেটা নিজেও একাধিক জনকুবেরের মধ্যে বেটিং চলে। প্রশাসন যতই চেষ্টা করুক, এই খেলা বন্ধ করা যাবে না। সতর্ক হতে হবে সাধারণ মানুষকে।

■ কীভাবে?

বাবা-মায়েদের সতর্ক হতে হবে। নিত্রিয়ারার ফ্যামিলির জন্যান্য সকলেই নিজের চাকরি ছাড়াতে রাজ। যতই ব্যস্ততা থাকুক, বাচ্চাকে সময় দিন। খেয়াল রাখুন, যাতে আপনার সন্তান অনলাইন গেম না খেলে। ওই গেমগুলোয় ‘মোমো’র ব্লাকমেল পাওয়ার সম্ভাবনা বেশি।

In 2020, after helping foster thousands of startups and entrepreneurs, Arijit founded the World

Leader Summit (WLS) one of the world's largest online professional and networking summits with participation of more than 90 countries and 120+ global leaders. WLS 2020 brought together world leaders, entrepreneurs and world class businesspersons under an umbrella to discuss their secrets of success, the strategies they follow, and how they have managed to succeed during the COVID19 pandemic.

https://www.arijitbhattacharyya.com/bio.html

ARIJIT Since 1998 YEARS WORKED IN SEVERAL INDUSTRIES

Game Development, VR, AR, XR, AI, Deeptech.

Realizing his dream to "Bring Art and Technology Together Successfully", Arijit founded India's one of the first game development studio, Virtualinfocom (VIC) in 1998. As one of India's first and leading technology companies, VIC is known for many innovations in IT solution, game development, AI, ML, blockchain solutions, VR, AR, XR & animation.

VIC has produced more than 470+ games and VR, AR, XR app and Blockchain solutions and as an institute produced more than 5,000+ skilled programmers and designers that work with some of the most renowned technology organizations in the world.

Arijit is the first person in Indian who started making digital human/ 3D superheros directly from real actors and models while doing motion capture and 360 degree photography.

Virtualinfocom produced own game titles based on movies as a production partner

Out of 500+ games few example : **Shaktimaan** the game & Shaktimaan the battle with superstar Mr Mukesh Khanna,, Bangladesh's first superhero movie **Bizli** , West Bengal's first movie based game **Boss 2** with superstar Jeet, Nusrat Subhashree , **Subhashree Ganguly- the tigress**, **Nilanjana** – Priyanka Sarkar, Mainak Banerjee, **Tushagni** – Arjun Chakraborty & Amrita to name a few.

Produced India's first RPG Mythology based game **Ashwathama the immortal** where in 2007 Arijit took kalari fighters in the game for fighting style and several fresh models as 3D game character, he did real-life shooting of all of those models and made 3D game characters that time.

Produced Nepal's first 3D racing game and also Bhutan's first 3D game

Fight of the legends – a series of superhero based fighting game where since 2008 Arijit recruited more than 200 models and actors around the world to be 3D game character and in future that moved in the **NFT and metaverse** world.

Mentor & Angel Investor:

IIM Calcutta Innovation Park ,India	Naman Capital, iAngels, Founder Institute USA	Seedstars Switzerland
IIDF VC Fund	Ah Ventures India and AAT USA	Megaline(UK)
Fastercapital (Dubai)	Maxcap(China) Roots Incubator India	Techstars, Startup Saturday**.**
Innovation Academia-Iceland	B Incubators, PDPU India	TCDIC(China),
CIIE	BGI Portugal	NEN- National Entrepreneurs Network

- Founder Trustee & Chairman of **bongentrepreneurs –** a community of business individuals around the world which became Trust body in India since 2015.
- **Adviser:** , , Few co-working space and incubation centers in Asia. Started StartupPad in Indian Chamber of Commerce India.

In the capacity of a mentor, he has helped entrepreneurs incubate their ideas into businesses, formulating go-to-market strategies, launching products and ensuring they work on sustainable business models. His expertise is hired by businesses that want to scale up, manage risk, reduce cost and grow more than industry benchmark.

Arijit is a Business Scalability Expert and a Finance, Technology & Growth Consultant focusing on Small & Medium Enterprises (SME), Mid level corporates and also advising companies on private equity investments in the startup and SME space.

He has advised senior leaderships across MNCs and small businesses on improving operating margins and driving profitability.

He has expertise across various sectors such as Entrepreneurship, Angel Investment, Venture Capital, Raising Funds for SME & Startups, Technology, Deeptech, Early-stage

Ventures, Government Relations, Global Startup Ecosystem, Business Incubator, Co-working space, International Business Operations, Movies & Media, Education, Strategy.

Arijit is quick to adopt the changes brought about by AI breakthroughs in the recent decade. His current work reflects his passion for deep learning through testing and refining the predictability of a customer's potential purchase. Along with that he worked closely on voice tagging, ML scripts and helped universities across the world to adopt new tech and train the trainers. Arijit helped to create a methodology that set the industry standard for accuracy and real-time delivery of facial expression data and analysis.

Arijit, always knew that the Indian animation & gaming industry's future was rooted in being able to produce original intellectual property. This pushed Arijit to establish virtualinfocom in the year 1998. His special interest in creating original Indian content for global audiences yielded in great success through creations such as Shaktimaan the game, fight of the legends (series), Ashwathama the immortal, Sukhu Dukhu, Lalkamal Nilkamal, Desert Drift, Saudi Arabia with love, 3D racing to name a few.

It needs knowledge, creativity and the dedication to establish one's talent. His devoted hard work to empower artists and coders in India, S Korea, USA, Thailand, Australia with the latest technology to thrive and excel in the world of gaming, animation took him to remote villages in the country, where he discovered artistic talent to groom and great coders. While creating jobs for thousands of artists and programmers and animated professionals, Arijit Bhattacharyya has been a mentor, an educationist and a constant inspiration to the creative youth of our country to excel in the art of storytelling from history of the world. the best part of his exploration is digging science behind the mythology and culture. He himself travelled various parts of the world to explore culture and science behind those stories and put them in gamification and real animation. In fight of the legends and Ashwathama the immortal and katya game his team tried to put various fighting styles from different parts of the world and explored the opportunity to understand science facts in storytelling mode.

His passion to explore culture and science behind mythology can be explored in 8metals.com/ a non profit initiative to share knowledge.

Enable entrepreneurs to match and meet at Live and Online events.

Networking lunches

I have hosted a few hundred networking lunches, where I provide a forum for six to 12 like-minded members of my network to meet and exchange value. The key to hosting a successful lunch lies in the selection of the restaurant and the attendees. You'll want to select a restaurant that can accommodate paying separately and has a private dining room. It's a complete B2B segment where people come with specific agenda and target in mind. Me and my team members do specific B2B and B2C with guided structure.

Brainstorming dinners

I started hosting dinners since 2016 to connect successful entrepreneurs. Me and my team, puts a lot of emphasis on selecting the right attendees for each event.

We ensure there is at least one over-arching commonality among all guests and avoids inviting people at opposite ends of experience (i.e. don't invite someone who recently started their first venture to join a group of CEOs running $100m companies), if it's a networking session for startups, we make sure to bring actual value for them where they can get REAL business.

At least two of the guests have in common that's not particularly common and will arrange seating to increase the likelihood of it coming up over the course of the dinner.

CHAMBER OF
COMMERCE AND
INDUSTRY OF SERBIA

IT & ITES Projects (Few glimpse):

Game: Produced more than 1200 plus game with more than 275+ celebrities and models(India, Russia, UK, Ukraine, Africa, Italy, France, Finland, Nepal, USA) as 3D simulated game character with over 250 millions user base.
